

# Nature Works! Restoring our Future by 2030

Mira Maude Chouinard

NEEA

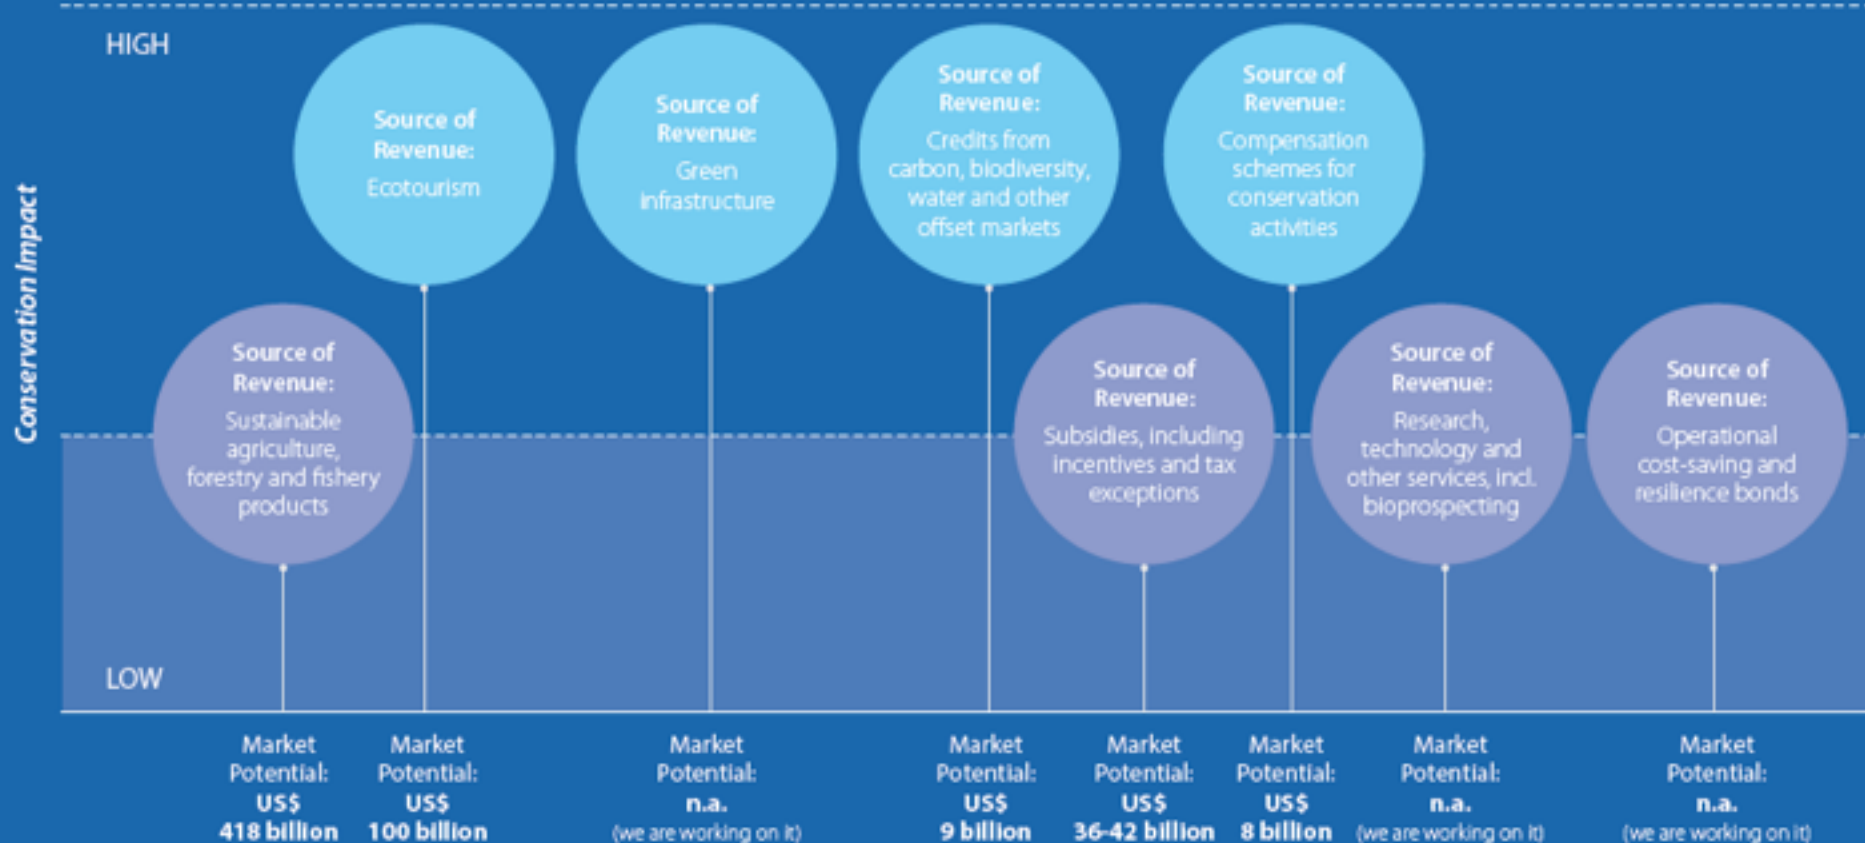

That value business opportunities in nature

## Market opportunities

Resulting in positive impact and conservation of nature

**MEDA** *Creating business solutions to poverty*

# The MEDA Risk Capital Fund

Over 65 years of investing for impact in emerging markets

# Environment & Climate Change at MEDA

# Green finance at MEDA

**Improved financial services for Environmental solutions (for individuals, businesses and financial institutions):**

- Environmental innovation grants
- Green financial products
- Environmental sustainability policies

**Blended finance partnerships for Impact Investments to SMEs and Investment Funds:**

- Minimizing Risks
- Ensuring Environmental Sustainability Policies & Compliance to Environmental, Social & Governance (ESG) criteria
- Increasing Clean Energy Generation Capacity, Agricultural Biodiversity and Water Management

# Launching a Gender Lens Investing Fund

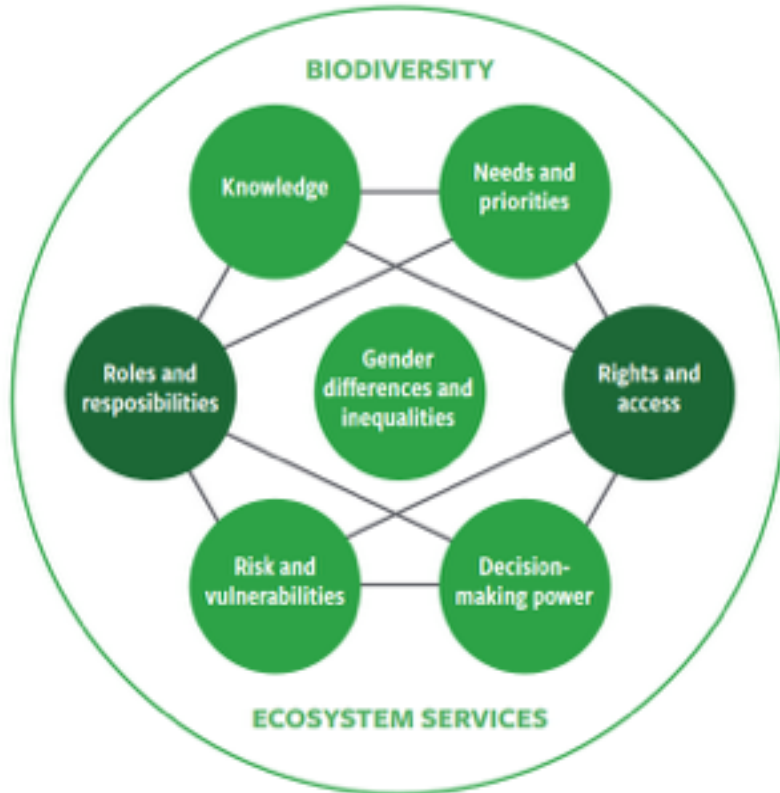

figure 1: Key links between gender and biodiversity

# Green finance at MEDA

## Enduring Impact

Invest in impactful SMEs and funds to promote sustainable and equitable growth

Addressing the underlying issues around Environmental Problems (e.g. Pollution, Climate Change and Changes in Land Use):

- conflicting private and public interests
- ineffective policy and governance
- insufficient or ineffective financing
